

Arkansas Civic Education Program

The Arkansas Civic Education Program is the League's new online and in-person training and certification program. The ACE program is open to all municipal officials and personnel in Arkansas and includes four levels of certification. Pursuing certification is optional, and all members are welcome and encouraged to participate in trainings. Participants in the League's former certification program will maintain their current certification if they choose.

There are four levels of certification in the ACE Program. Level One is called **Civilpedia**, which has the most fundamental and baseline information needed to understand municipal government in Arkansas. Level One requires 25 credits. Level Two is called **ACE-Certified** and contains 50 credits to achieve. To receive Level Three certification and become **ACE-Advanced**, one must complete 75 credits of training. The final level, Level Four, is a 100-credit requirement and one is designated an **ACE Master** upon completion.

Level One is offered through the ACE Hub for a \$50 fee. ACE Hub classes in Levels Two, Three, and Four are offered at \$20 per class. In-person training provided at Summer Conventions and Winter Conferences is included in the meeting registration fee.

ACE Hub

The ACE program provides multiple delivery options for convenience and efficiency. The online training is housed in the ACE Hub, an online learning management system that is accessible at any time. Currently, in-person training will be offered at our Summer Conventions and Winter Conferences. Select in-person trainings will be live-streamed through the ACE Hub for an additional delivery option.

The ACE hub is accessed at acehub.adobelearningmanager.com or by scanning the registration QR Code. Upon sign in or signup, download the **Adobe Learning Manager** app from the App Store on your smart device for quick access to the ACE Hub. Online training is registered, purchased, and recorded in the ACE Hub. In-person training is registered and recorded in the ACE Hub via an assigned scannable QR Code.

All offered training is available to all municipal officials and personnel. One is not required to pursue certification by attending training. Municipal officials and personnel certified under our former certification program will carry over their certification into the ACE Program. Credits toward future level certification may be accrued without first receiving previous level certification. Accrued credits will be applied after previous level certification is completed.
