

Municipal Health Benefit Program (MHBP) Preferred Drug List (PDL) - Effective May 2025

This PDL is a list of the most commonly prescribed drugs. It is not all-inclusive and is not a guarantee of coverage. Plan Benefit Design is the final determinate of coverage. For drugs not listed, please call the pharmacy program number listed on the back of your Prescription Drug ID card for benefit coverage information.

PLEASE NOTE: The Program enforces a Generic Incentive Policy for brand-name drugs that are available generically. In the event a brand-name drug is chosen for which a generic exists, the member will pay their generic co-payment PLUS the difference in cost between the generic and brand-name drug. Members are encouraged to choose generic drugs, when possible, to reduce out-of-pocket cost. Most generic drugs are noted in *italics*.

Specialty drugs *may require* prior authorization (PA) by EBRx to ensure appropriate usage. These medications are indicated in the PDL located under Tier 4. Physicians may contact EBRx, toll-free, at (833) 339-8401.

Medications listed as reference priced are considered non-covered by the Program and out-of-pocket payments for these drugs are not applied to your maximum out-of-pocket limit. Note: Some generic drugs may be subject to reference pricing and identified within the appropriate section of the PDL and are in *italics*.

Key: Certain drugs (*) may be subject to Quantity Limits (QL), Prior Authorization (PA), Step Therapy (ST), Contingent Therapy (CT), or Reference Pricing (RP) requirements according to Benefit Design. **Items indicated as *(RP) require special copayment pricing and do not apply to the standard tier copayments. This PDL is subject to change at any time.**
