

# AML Salary Survey Results 2025 Pop All

The following salary survey has been compiled to give municipal officials insight into the staffing levels for various positions in Arkansas municipalities. Readers of this report should bear in mind that individual duties and responsibilities can and often do vary from municipality to municipality, even for individuals with similar titles. Also, cost of living and the financial status of each municipality may cause significant variances. METHODOLOGY:

- a) Questionnaires were completed electronically and responses were interpreted and compiled by JER HR Group.
- b) Salaries requested were to be the actual annual salary for positions with only one employee. Hourly positions were to be converted to an annual average by multiplying the hourly rate by 2080 hours. Salary data reflects an effective date as of February 1st of this year.
- c) Where blank spaces exist, data was not provided.
- d) JER HR Group included all valid data that was submitted. There were a few instances where data was either excluded or moved to a different category (particularly in the salary section) in order to be a better fit with the rest of the cities. For instance, where there were different levels of the same job, some salaries were moved to the level that best aligned with the other cities.
- e) We have provided a minimum and maximum salary range number for each position using a common percentage of 80% of midpoint and 120% of midpoint respectively when data was not provided. These ranges may not reflect the actual salary ranges of the cities.

All data requests and responses are subject to different interpretation based on the data submitted. The League staff and JER HR Group take full responsibility and apologize for any error in this report resulting from a misinterpretation of information. We do believe, however, the data is sufficiently valid to be useful as a guide. The League staff and JER HR Group appreciate the time and effort of the municipal officials and employees who participated in this project.

We would like to acknowledge the work done by the members of the AML Survey Steering Committee who oversaw the process and final product:

Glynis Lynch - Forrest City AR

Sue Edwards - Mountain Home AR

Lisa Mabry-Williams - Conway AR

## CONSULTANT'S STATEMENT

Use of this survey instrument and all reported data is considered confidential. The survey participant has the right to use the reported data in their regular course of business solely for their own internal use. The survey participant acknowledges that the JER HR Group owns all survey instruments and all reported data including but not limited to all copyrights, patents, trade secrets, and other proprietary rights. Access to any survey instruments or reported data does not convey or infer to the authorized user any proprietary or other ownership of the survey instrument or data. As a survey participant you may not copy, forward, sell, distribute or otherwise disclose any part of JER HR Group's survey instruments or reported data without their written permission.

JER HR Group maintains the raw data collected in this survey and protects the confidentiality of each participant's data. Although every reasonable effort was made to verify the validity of data submitted, JER HR Group makes no guarantee or warranties, written or oral, expressed or implied, regarding the validity of the participant's data submitted to JER HR Group. We want to thank Chris Devine with Cyberdyne Systems, LLC who helped make this survey possible. If you would like additional information about this survey, contact:

1221- Utility Construction

Job Description:	This is a position consisting of a heavy labor and mechanical nature involving the maintenance of the City water distribution system, the City wastewater collection system and related facilities as well as the fields of street maintenance, repair, construction and related activities. Repair and replace damaged water and sewer mains and related components. Installation, repair, and maintenance of water meters and fire hydrants. Tapping of water mains and installation of new water service connections. Maintain records of all work performed, in both written and computerized form. Set up and remove traffic control devices such as cones, flares, barriers, flashers, flags, etc. May be required to direct traffic. Operate heavy equipment: back hoe, track hoe, dump truck etc. Class "B" Commercial Driver's License. Must acquire entry level water/wastewater distribution/collection technician certification from the State Department of Environmental Quality within 6 months.
