Safety Training Anywhere, Anytime.

Arkansas Municipal League Announces ACE SafeTrack Certification Program: Revolutionizing Safety Training for Frontline Workers

The Arkansas Municipal League (AML) is proud to unveil the **ACE SafeTrack** Certification, an innovative on-demand workplace safety training program designed to provide essential safety education to Arkansas's frontline workers. Housed within the ACE Hub, this program continues AML's commitment to enhancing professional development and safety across its general membership.

The ACE SafeTrack Certification is part of the broader Arkansas Civic Education (ACE) Program, a cornerstone of AML's training and certification initiatives. Launched just after the one-year anniversary of the ACE Program, ACE SafeTrack ensures that essential safety training is always accessible, empowering municipal employees to learn anytime, anywhere.

"With the ACE SafeTrack Certification, we're bringing safety training directly to those who need it most," said Kerrie Lauck, Director of Education for the League. "This program not only equips our frontline workers with critical safety knowledge but also strengthens our communities by creating safer workplaces."

Certification Levels: Participants can progress through four certification levels:

- **Level 1:** 25 Credits
- **Level 2:** 75 Credits (additional 50 credits)
- **Level 3:** 150 Credits (additional 75 credits)
- **Level 4:** 250 Credits (additional 100 credits)

As AML celebrates the first anniversary of its ACE Program, the launch of ACE SafeTrack underscores the League's dedication to providing robust training programs that empower its members to thrive.

The Arkansas Municipal League (AML) serves as a resource and advocate for Arkansas cities and towns. Through programs like the ACE Hub, AML supports municipal leaders and employees in their mission to build safer, stronger communities.

To Register for the **SafeTrack Certification**, learners can scan this **QR code**.
